Loyola University of Chicago

Bachelor of Science in Psychology, Minor in Bioethics, 2012 - 2015

- Alpha Sigma Alpha: Gamma Lambda, WLWU 88.7, Loyola University Phoenix: Diversions

Certifications

American Heart Association

Healthcare Provider, License 01933

Experience

John H. Stroger, Jr. Hospital of Cook County: Chicago, IL, May 2014 - August 2015

Psychiatric Research Intern

- Extensive contact and interaction with trauma physicians, residents, medical students and support teams within the clinical setting
- Case analyses including demographic research, legal issues, medical insurance & other ancillary factors
- Collected and maintained accurate data on patients of marginalized socioeconomic status with trauma-induced PTSD
- Utilized the web-based platform QuesGen for configuring and managing medical record entry
- Maintained rapport with patients, families and various clinical support teams in both the inpatient and outpatient settings
- Observed and participated in patient interactions of licensed social workers and psychologists
- Displayed compassion, patience and interpersonal skills
- Provided health information systems support and tech help
- Proficient in using Microsoft word, Excel and Powerpoint

Leadership

Alpha Sigma Alpha Gamma Lambda Chapter: *Team Captain, Recruitment Selections Chairwoman*

- Efficiently lead over 100 sorority women through philanthropic challenges, winning numerous championships in the Greek Life community and exceeding target goals
- Oversaw recruitment selections committee and evaluated potential new members, eventually assigning bids to those who met the organization's standards and upheld the organization's values and aims
- Coordinated and attended regular meetings for chapter maintenance and growth

Projects

PSYC 399: Special Studies, Behavioral Economics and Group Psychology

- Under the direction of Professor R. Scott Tindale, acted as experimenter for the stock investment study launched November 2015 and previously worked on the “story study” measuring group behaviors through testing numerous conditions and neutralizing limitations
