## EXPERIENCE

### Software Developer and QA Intern - **Entropy Multimedia, Inc.**

#### **November 2012 - Present**

- Maintained and developed multilingual resources and solutions for internationalization of websites.
- Assured continued quality of build releases through diligent testing of both possible user interactions and known issues.
- Developed automated testing programs to expedite and complement the quality assurance testing process.

### Knowledge Management Consultant - **AIESEC US, Inc - New York**

#### **January 2015 - Present**

- Analyzed Current state of education and knowledge management at the national level to define the major stakeholders and design a strategy for online education.
- Created virtual platform to provide more accessible and relevant resources/information to best serve the educational needs of AIESEC in the US's members.
- Collected, classified, designed, and published the education materials of the entity while coordinating the creation of new and better content.

### Regional Coordinator - **AIESEC US, Inc - New York**

#### **January 2015 - Present**

- Created and organized a strategic support team for the region to better grow the local committees.
- Developed systems and supported the communication of coaches with local leaders, spearheaded regional strategy development, and provided direct Local President coaching.
- Planned regional conferences and initiatives to educate and motivate new membership.

### Local Committee President - **AIESEC US, Inc - Eau Claire**

#### **January 2014 - December 2014**

- Managed a local committee of 45 undergraduate students and lead an executive board of officers of seven functional teams and one subsidiary.
- Facilitated the creation of goals and key performance indicators for teams and members for the upcoming year.
- Contributed to the national direction of the organization through the creation and implementation of multiple new strategies with think tank committees.
- Represented AIESEC Eau Claire at the national level and to national board of director's administrative faculty, business leaders, and students.
