- Profile:** Ambitious student with excellent research, analytical and problem solving skills. Dedicated biology major: pro-active, conscientious and possessing a strong motivation to succeed. Seeking an opportunity to apply my education and experience to begin my career in healthcare.
- Qualifications:**
- . Excellent analytical skills
 - . Results driven
 - . Collaborative team member
 - . Self Starter
- Skills:** Laboratory Techniques: Aseptic Technique, PCR, Recrystallization, Thin layer chromatography (TLC), Vacuum Filtration
Software: Microsoft Word, Excel, PowerPoint, Publisher, Windows and Mac operating systems
- Experience:**
- The Riverhead Foundation for Marine Research and Preservation**, Riverhead, NY- Summer 2014
Intern – Responsible for maintaining daily operations of the animal hospital. Conducted lab research on blood samples taken from live animals and analyzed water quality of the environment for all patients in the hospital. Assisted in conducting patient physicals which included ultrasounds and lab work. Volunteered to be lead team member for physicals on distressed animals. Participated in emergency response that included rescuing animals injured or in danger in the field.
- Beacon Hill Civic Association**, Boston, MA- Summer 2013
Intern – Assistant to the Executive Director. Duties included obtaining construction permits, organizing and preparing materials for association events, daily updates for social media accounts for community announcements. Created database to archive materials from Association events. Informed homeowners of day-to-day construction operations and any unforeseen issues with potential to interrupt or impact quality of life. Solved computer/technical problems.
- Suffolk University**, Boston, MA- September 2011 – 2012
Environment Representative – Planned, organized, and staffed on campus events promoting environmental awareness and sustainable living. Implemented measureable change to achieve these goals.
- Ameriprise Financial**, Bohemia, NY- Summer 2010
Intern – Selected for a Northport High School Academy of Finance Internship. Transformed thousands of confidential client files from paper-based to leading edge database technology, in advance of project schedule. Gained firsthand knowledge of financial planning and its impact on retirement planning.
- Education:** **Suffolk University- Boston, MA** 2011 – 2015
Bachelor of Science: Biology Major
Inducted to TriBeta Biological Honor Society
- Community Service:**
- Suffolk University** – Franklin Park and Boston Common (Boston Shine) Cleanup Project
 - Boston Food Bank** - Volunteer
 - Saint Phillips Church** – Volunteer for creating Holiday packages and maintaining food pantry
 - Northport High School** – Member of Students for 60,000. Fundraisers and Relay for Life
 - American Legion** - Volunteer for town events
