OBJECTIVE

To obtain a full-time job in the field of Information Technology with specific interest in intelligence, risk analysis/management, and information technology operations.

EDUCATION

The Pennsylvania State University, University Park

BS in Security and Risk Analysis: Intelligence Analysis and Modeling Option

Expected Spring 2016

Minors: Information Sciences and Technology, History

Overall GPA: 3.84/4.00

Major GPA: 3.92/4.00

Dean's List: 5/6 Semesters

PROJECT EXPERIENCE

- Accomplished a semester long simulation with a diverse group of individuals to oversee the process of completing security audits of vendors, while incorporating the different phases of project management.
- Completed an in-depth analysis of a simulated terrorist attack on the United States with a team of individuals using different analytic techniques on intelligence reports and successfully predicting the methods of the planned attack and the roles of the individuals.
- Collaborated with a partner to conduct a risk assessment of the campus IT department, identifying the threats to assets and the gaps within policy. Project concluded with offering advice to the appropriate personnel.

WORK EXPERIENCE

Intern, Peacekeeping and Stability Operations Institute, Carlisle, PA

May 2015 - August 2015

- Developed an interagency stability operations framework for the United States Government (USG)
- Examined and completed a comparative report of another emergency response framework
- Examined and researched the structure of various departments, agencies, and organizations of the USG

Package Handler, United Parcel Service, Gettysburg, PA

May 2014 - August 2014
