WORK EXPERIENCE:

Summer Accounting Intern

May 2011 – Present

Clement Pappas Co. Bridgeton NJ

- Part of a multi-department team tasked to prepare the company for a mandatory outside audit by Deloitte LLP.
- Our responsibilities included assuring the accuracy of the company's inventory control system with respect to the day to day usage of ingredients used in the production of a multitude of juice products.
- In working with the team, I gained valuable experience in internal auditing practices and an understanding on how such factors as cycle counts, yields, and production variances can affect inventory accuracy.
- A side benefit from this project was a significant cost saving when analysis of production scheduling showed that a minor change would result in fewer ingredient losses.

Head Lifeguard

May 2006 – Present

Parvin State Park, Pittsgrove, NJ

Promoted to Sergeant Guard in 2010. In addition to normal guard duties, responsible for training of junior lifeguards, making up weekly work schedules & maintaining certifications.

Lifeguard

September 2009 – Present

Indiana University Pool, Indiana PA

Supplement income by working early morning shift Monday - Friday at university pool.
